# LITETRONICS®

Safety Cable Kit (HBAM30)

Installation Instructions
To be used with full installation instructions for 16" LED Round High Bay Fixtures.

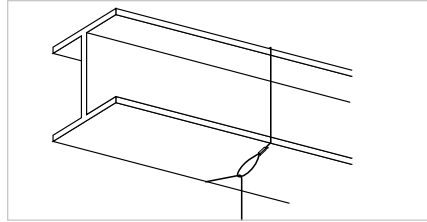

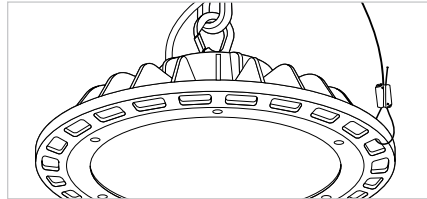

WHAT COMES IN THE HBAM30 PACKAGE
Each Round High Bay Fixture Safety Cable kit comes with the following standard parts:

(1) Cable with Loop   (1) Cable Lock

Before Installation, carefully remove all parts from the packaging. Inspect product for defects due to shipping.

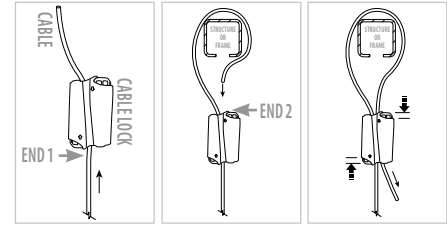

1. Determine area/structure to hang fixture from and attach cable to structure. Loop cable around beam, or other secure fixture.

2. To attach cable to fixture. Attach safety cable directly to the frame of the High Bay and directly to the structure.

3. You can also route the cable from the frame through the snap hook of High Bay to minimize visibility from below.
